

Connecting the System

London Leadership Academy Leadership Roadshows 2017

From December, the London Leadership Academy will be touring the capital in our new Regional Roadshow series where we bring a taster of our high-quality leadership workshops to your workplace.

Empowering leaders to connect across the health and care system is crucial to ensure the future delivery of our service. Leaders who develop, connect and share across organisational boundaries will be able to innovate to meet current challenges.

A workshop will be held in each of the five STP geographies (North West London, North Central London, North East London, South East London, South West London) to enable staff on the frontline of service to take time and space, to develop themselves as leaders, to connect with others facing similar challenges in their STP patch.

This is a chance for you to take advantage of the LLA's leadership development offers and to connect with others across your organisation and beyond. These workshops are particularly targeted at frontline leaders who don't often get the opportunity to take time and space for themselves. **Click here** to see where we are visiting. If you would like to host the LLA in your organisation, email LondonLeadershipAcademy@hee.nhs.uk or sign up to the LLA newsletter to hear about our latest offers.

“What we need to have is a staff and leadership that is representative of the communities we serve, because you will run a better organisation... Living those values consistently day in and day out makes all the difference.”

Sir David Sloman, Chief Executive of the Royal Free NHS Trust on diversity in the NHS

North West London Leadership Workshop

Beyond Difference: A Human Centred Approach to Inclusion

Harjinder Bahra and Mitzi Wyman

18th December, 14:30 – 17:00

Gleeson Room, Chelsea and Westminster Hospital,
369 Fulham Rd, Chelsea, London SW10 9NH

Harjinder Bahra is a barrister, an inclusion and human rights consultant. He is passionate about the human potential, and has advised on equality, multiculturalism, diversity and human rights for over 15 years.

Mitzi Wyman has spent the last 15 years working with leaders who operate under conditions of intense scrutiny and ever-increasing demands. She supports individuals at all levels, whether they be learning how to manage a team effectively for the first time, or making decisions with huge impact for the populations they serve.

In this workshop, participants will be introduced to practical, relevant case studies which explain the general principles of human rights in the context of the NHS. The sessions will be run using a semi-structured, dialogic model (based on the work of Isaacs and Klein). This will mean participants experience an inherently inclusive learning environment where they can safely generate and test out fresh thinking around the application of human-centred approaches to inclusion in their day to day challenges.

This workshop is hosted by Chelsea and Westminster and is open to attendees at the following organisations:

- Imperial College Healthcare NHS Trust
- Central and North West London NHS Foundation Trust
- West London Mental Health NHS Trust
- Chelsea and Westminster NHS Foundation Trust
- London North West Healthcare NHS Trust
- Royal Brompton & Harefield NHS Foundation Trust
- Royal Marsden NHS Foundation Trust
- North West London CCGs and Community Organisations
