

Connecting the System

London Leadership Academy Leadership Roadshows 2017

From December, the London Leadership Academy will be touring the capital in our new Regional Roadshow series where we bring a taster of our high-quality leadership workshops to your workplace.

Empowering leaders to connect across the health and care system is crucial to ensure the future delivery of our service. Leaders who develop, connect and share across organisational boundaries will be able to innovate to meet current challenges.

A workshop will be held in each of the five STP geographies (North West London, North Central London, North East London, South East London, South West London) to enable staff on the frontline of service to take time and space, to develop themselves as leaders, to connect with others facing similar challenges in their STP patch.

This is a chance for you to take advantage of the LLA's leadership development offers and to connect with others across your organisation and beyond. These workshops are particularly targeted at frontline leaders who don't often get the opportunity to take time and space for themselves. **Click here** to see where we are visiting. If you would like to host the LLA in your organisation, email LondonLeadershipAcademy@hee.nhs.uk or sign up to the LLA newsletter to hear about our latest offers.

“We’ve made some quite significant service changes, some of which people said at the outset would be impossible to do but we managed it...I’m really proud of that.”

Claire Braithwaite, Imperial College Healthcare Trust, 2017 Leadership Recognition Award Winner, Leading and Developing People

North West London Leadership Workshop

Courageous Conversations

Adam Woodroffe, Practive

8th December 2017, 9:30 – 12:30

W12 Conferences, 150 Du Cane Road, London, W12 0HS

Adam Woodroffe is Lead Associate at Practive. Practive is a UK based consultancy with 15 years experience of working with organisations big and small to develop leadership at all levels. At the heart of all of our interventions is a passion for understanding and developing in ourselves and others the knowledge, strategies, behaviours and mindset of leadership that enables the shift from concepts and theories into practice and action. The question that interests us is “What does effective leadership look like, sound like and feel like?”

Our focus is on the development of practical skills and behaviours; we specialise in bringing developmental theory to life and putting practice at the heart of all of our work in order to create innovative, energising and effective interventions. This varies from the design and delivery of leadership development, through facilitation of teams and groups to one-to-one coaching.

This workshop will focus on your personal power and authority, and provide you with an understanding of the impact you have in challenging situations. This is an engaging, practical and interactive workshop. You may also be able to practice elements of a real-life situation, with trained professionals helping you explore challenging situations through different approaches.

This workshop is hosted by Imperial College Healthcare and is open to attendees at the following organisations:

- Imperial College Healthcare NHS Trust
- Central and North West London NHS Foundation Trust
- West London Mental Health NHS Trust
- Chelsea and Westminster NHS Foundation Trust
- London North West Healthcare NHS Trust
- Royal Brompton & Harefield NHS Foundation Trust
- Royal Marsden NHS Foundation Trust
- North West London CCGs and Community Organisations
